## **BIOGRAPHY**

**Weihua Lu** is a lecturer on Industrial Design of Nanjing University of Aeronautics and Astronautics, China. She got her doctoral degree in engineering from Ecole Centrale de Nantes, France, and her research interests include design methodology, user-centered design, especially Design for Emotion and Kansei Engineering. Her cross-culturally experience and interdisciplinary educational background (Design Art & Mechanical Engineering) endow with the complementary abilities essential in researches concerning the cultural and demographical influences on product design.

**Vanja Čok** is a Ph.D. candidate at Faculty of Mechanical engineering in Ljubljana, Slovenia. She earned her B.S. degree in Industrial Design at Academy of Fine Arts and Design in Ljubljana in 2010. Her B.S. degree project »Active Lounge Chair 1« was awarded with Trimo research award in 2010. Currently, her research interests include Kansei engineering, Emotions and Design, Ergonomic Design, User-centered Design, Cross-cultural aspects of user perception and New Product Development.

**Rupeng Zhu** is a full professor on Mechanical Design and Dean of School of Mechanical and Electrical Engineering, Nanjing University of Aeronautics and Astronautics, China. His research interests are Design Methodology, Mechanical Transmission, Mechanical Structural Strength, and Computer Aided Design.
